The claims must be limited to one invention only as set out in section 36 of the *Patent Act*.

In view of the above, a search of the prior art has been limited to the subject matter in claims 1-50 and 53-84.

A search of the prior art has thus far failed to reveal any pertinent references.

Claims of the corresponding issued United States patent No. 6,496,692 do not have the same scope of claims 1-50 and 53-84 in this Canadian application.

In view of the foregoing defects, the applicant is requisitioned, under subsection 30(2) of the *Patent Rules*, to amend the application in order to comply with the *Patent Act* and the *Patent Rules* or to provide arguments as to why the application does comply.

Under subsection 29(1) of the *Patent Rules*, the applicant is requisitioned to provide an identification of any prior art cited in respect of the United States Patent and Trademark Office, and European Patent Office applications describing the same invention on behalf of the applicant or on behalf of any other person claiming under an inventor named in the present application, and the patent numbers, if granted. Amendment to avoid references cited abroad may expedite the prosecution. In accordance with subsection 29(3) of the *Patent Rules*, if the particulars are not available to the applicant, the reason must be stated.
